About Us - Your Partner In Success!

Specialty Line has been serving the Promotional Products industry since 1971.

We are a full-service plastic injection molding company. In addition to standard decorating processes, (pad printing, screen printing, hot stamping), we can customize products with embossing or debossing to create a truly personalized product.

With everything manufactured, decorated, and quality controlled in our plant, we offer superior products at reasonable prices.

We also have complete design and tooling capabilities for new product development. In addition to our commitment to continue to add new products to our line, we can develop new custom products to your customers' specific requirements.

Our customer service is dedicated to serving you as your partner in achieving customer satisfaction, from quoting and order processing, extending to tracking and confirming on-time delivery.

Colors

- Our standard colors for both product and imprinting are shown below.
- PMS color matches are \$150(v) for imprinting and \$180(v) for plastic.
